PayPal: Connecting your account

Quickwork

- 4 years ago
- Updated

This article demonstrates how to establish a connection between PayPal and Quickwork.

What you'll need:

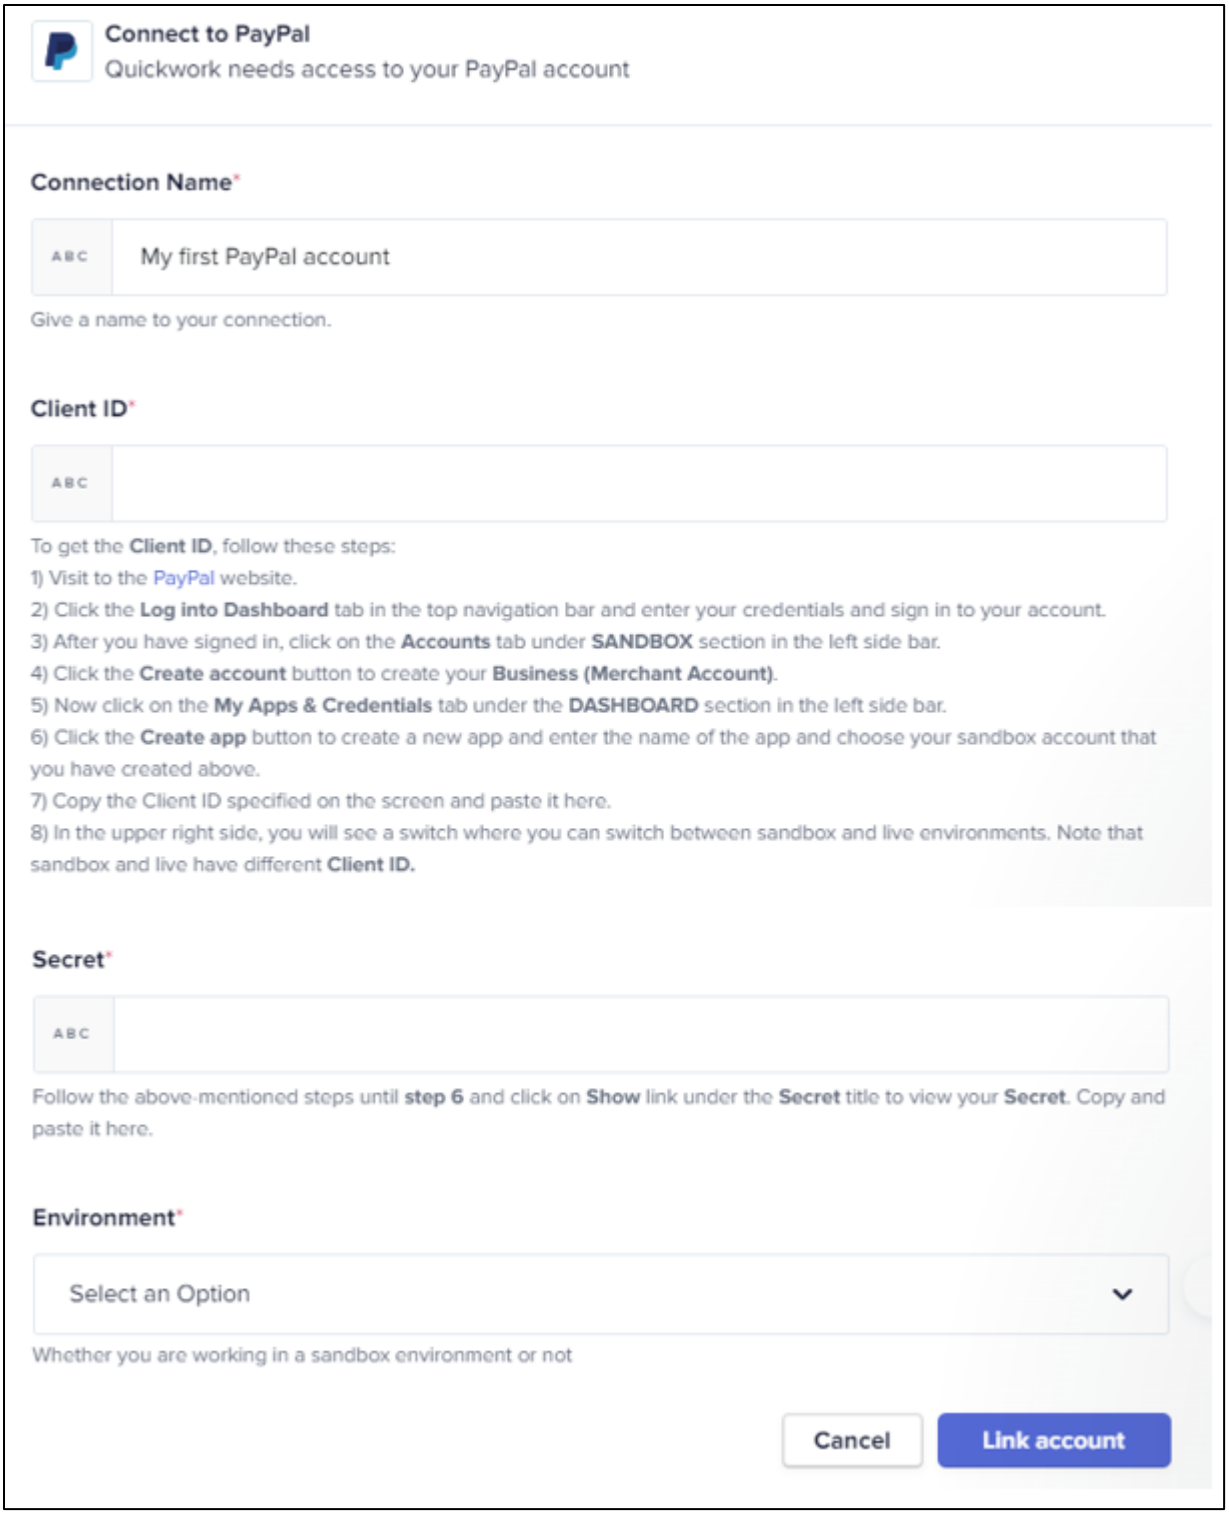
Skill level: Easy

Time required: 3 minutes

- PayPal account

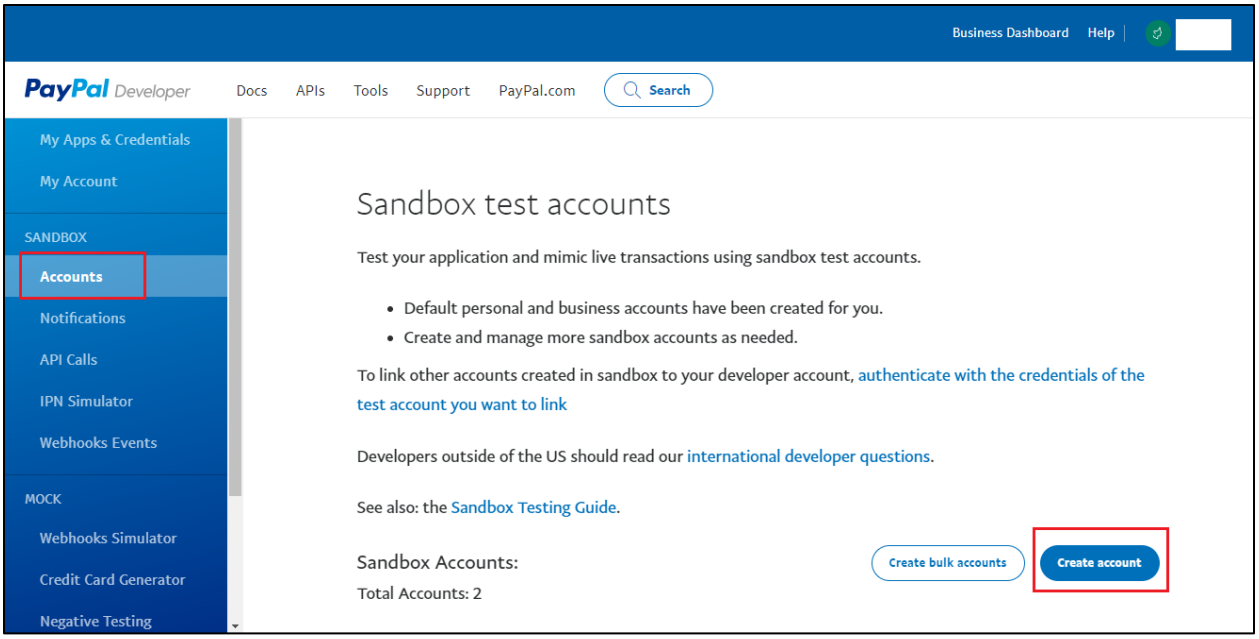
To connect your PayPal account with Quickwork, follow these steps:

1. Go to **Quickwork**, click on the **Simple Action** button under the **Steps** section, and choose the Microsoft Kaizala app from the **Apps** list. There are no triggers for this app.
2. Choose an action of your choice.
3. Click on the **Link an account** button to establish a new connection.
4. The **Connect to PayPal** window will pop up containing the **client ID**, **secret**, and **environment** fields:

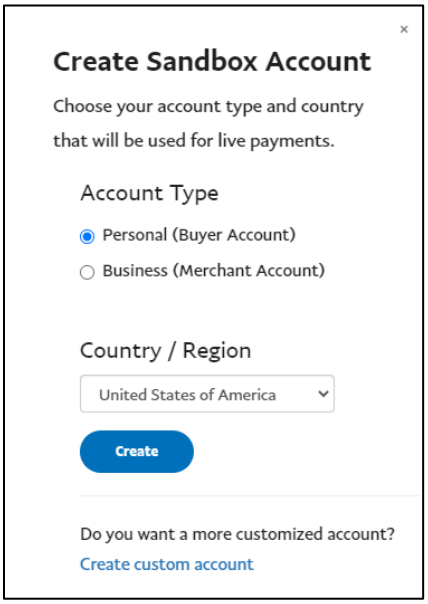


5. To get the **client ID**, visit the PayPal website. Click the **Log into Dashboard** tab in the top navigation bar and enter your credentials and sign in to your account. After

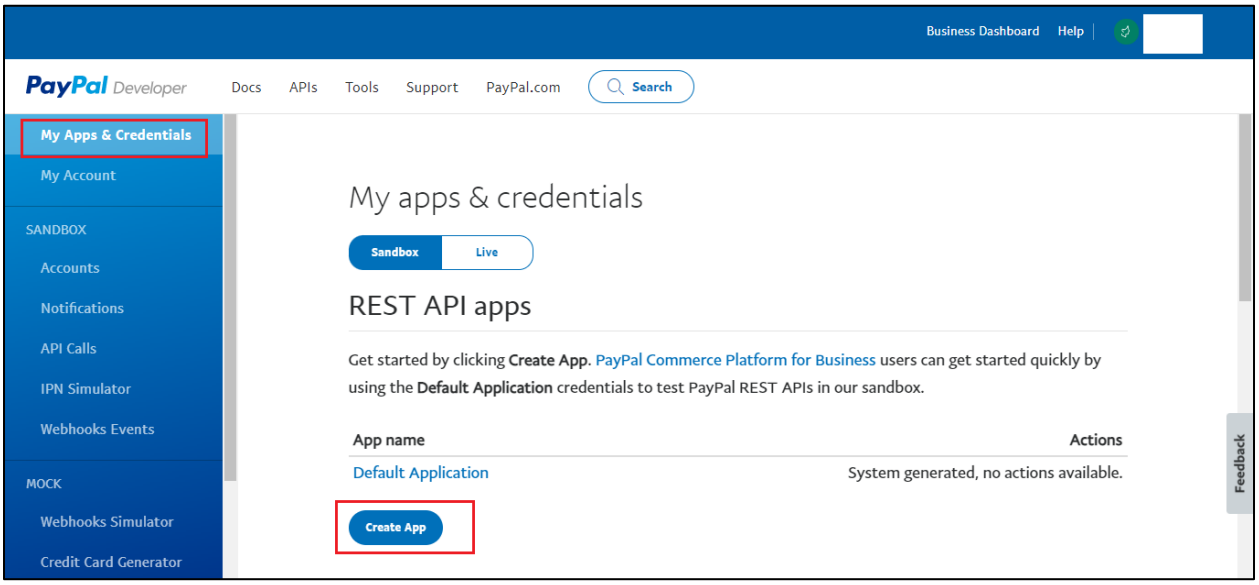
you have signed in, navigate to the Developer portal. Now, click on the **Accounts** tab under **SANDBOX** section in the left side bar. Click the **Create account** button to create your **Business (Merchant Account):**



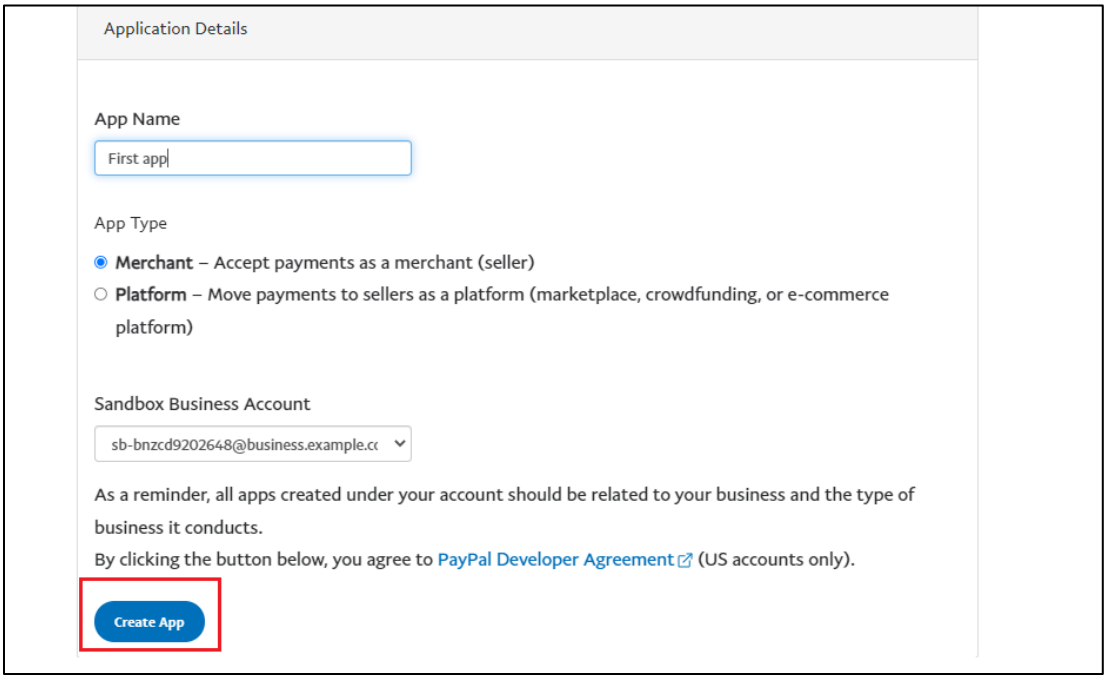
6. Select the **Account type** and **Country/Region** and click on **Create:**



7. Now click on the **My Apps & Credentials** tab under the **DASHBOARD** section in the left side menu bar. Click the **Create app** button to create a new app:



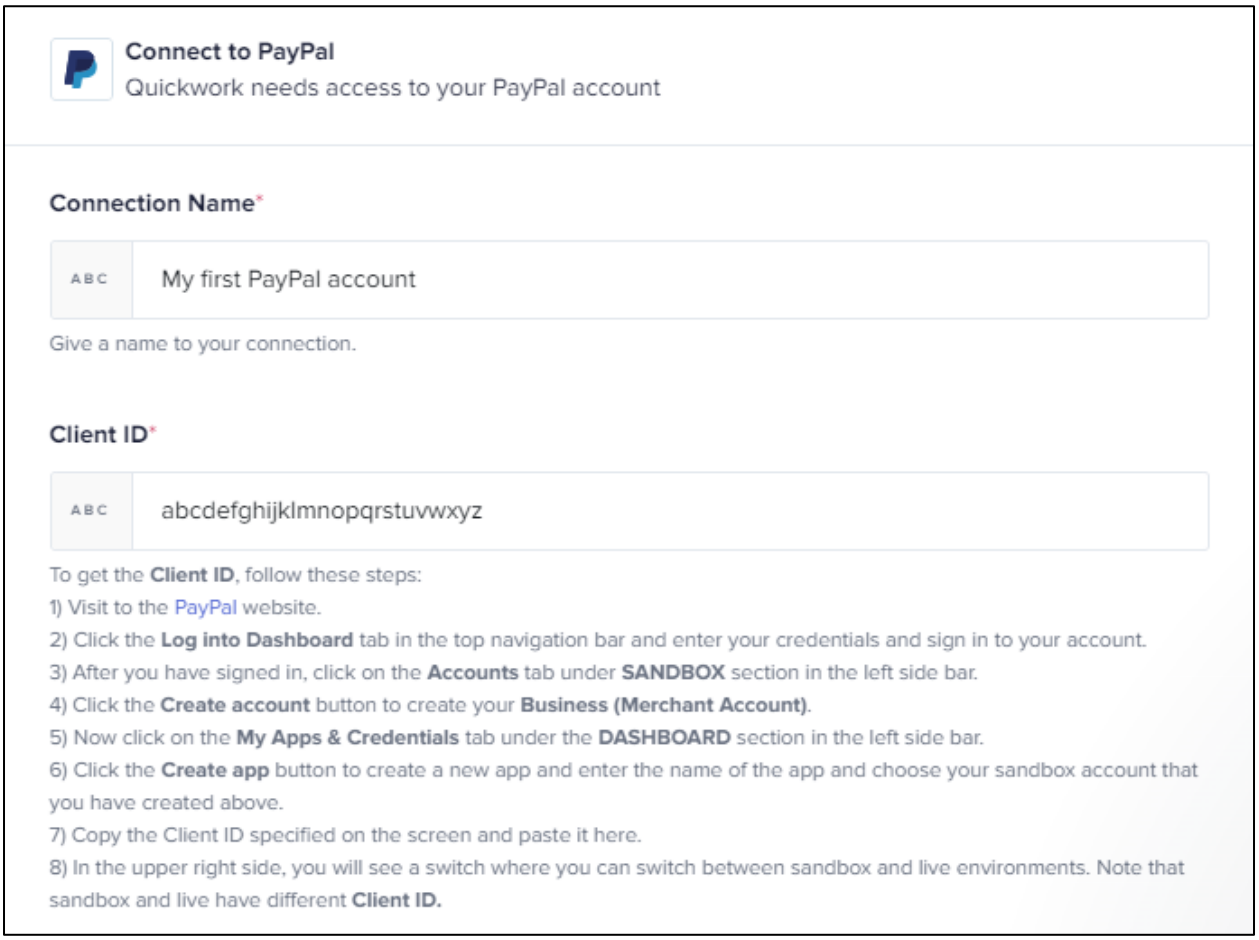
8. Enter the name of the app, app type and choose your sandbox account that you have created above. Now, click on the **Create app** button:

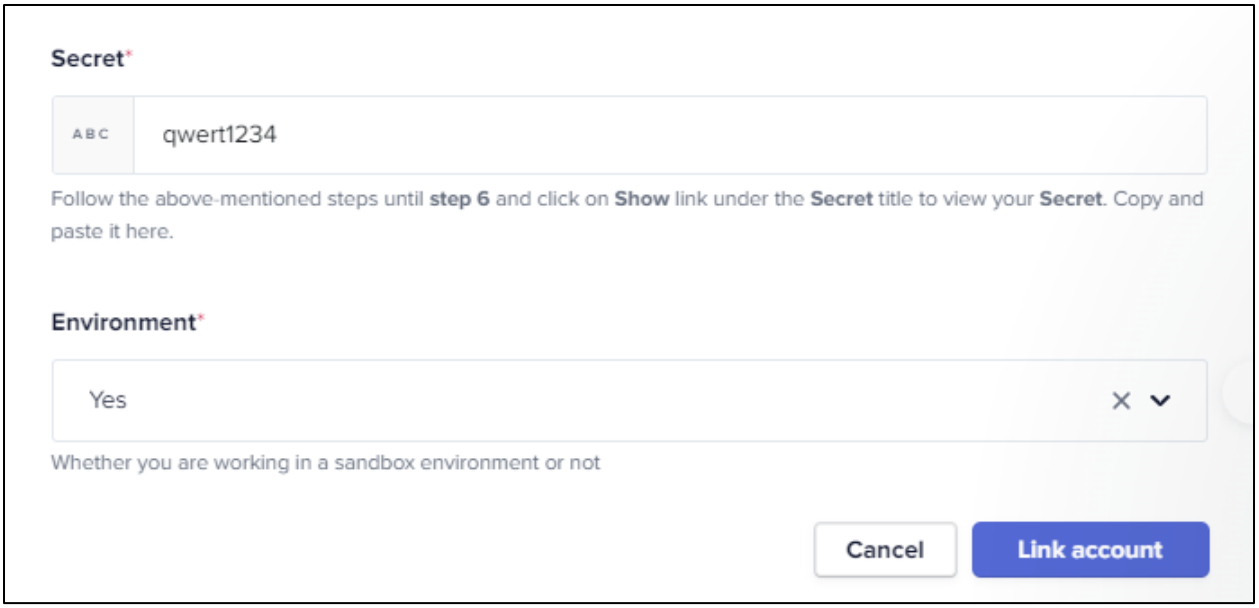


9. The **client ID** and **secret** will be displayed on the screen. Click on the **Show** button to view the secret. Copy these credentials:

10. On the upper right side, you will see a switch where you can switch between sandbox and live environments. Note that sandbox and live have different **Client ID.**

11. Paste the credentials on the **Connect to PayPal** window:





12. Now, click the **Link account** button. Your **PayPal** account will get connected successfully.
